All new incoming students, unless otherwise exempted, must undergo a comprehensive basic skills assessment in the areas of reading, writing, mathematics, and study skills before initial enrollment in credit-level courses, developmental and designated continuing education courses. Assessment scores will be used to determine the proper placement in the appropriate program, based on the individual student's needs. Students whose assessment scores indicate placement in a developmental program will be required to enroll in and satisfactorily complete developmental and/or English as a second language (ESL) course work designed to provide these skills.
