

ASSOCIATE DEGREE NURSING PROGRAM ADMISSION PROCEDURE
TO THE **ADN CLINICAL CLASS**
Evening/Weekend Option

To be included in the pool of applicants for admission to the clinical portion of the nursing program (the ADN Clinical Class), a student must apply by September 15th prior to the program start date. Applications are available on the college web site (www.frederick.edu/nursing). In addition, you must:

1. Complete all required developmental course work.
2. Complete BI 103, BI 104, and BI 120 by the end of the fall semester prior to the program start date.
3. Have all official transcripts from other colleges/universities sent to the Welcome and Registration Center by September 15th.
4. Take the TEAS exam and score Proficient
5. Have your major listed as ADN, Nursing

Please note:

1. Points will be assigned only to those students who have returned the Clinical Application for the ADN Clinical Class and met the above four criteria.
2. Any course(s) being repeated must be completed by end of the summer 2017 session in order to count in GPA calculation. The original course grade will be used in GPA calculation if the repeated course is not completed by the application deadline.
3. The students with the highest point total will be accepted conditionally into the clinical portion of the program and will be informed of their status by November 15th.
4. If any of the original accepted students decline their seats in the program or fail to meet their fall course requirements, the next eligible student with the highest point score will be notified for placement in the program.
5. Students with equal point totals will be ordered by GPA* from highest to lowest.
6. If you will be enrolled in courses at another college during the fall semester, you must include a copy of your current course schedule for the appropriate point value to be assessed.
7. Once grades have been posted in December, transcripts for those accepted conditionally will again be evaluated. Any student who dropped a course or failed to earn a 'C' or better will be re-evaluated. If, after the December re-evaluation, a person's new point total falls below the cut-off score for the ADN Clinical Class, he/she will not be eligible for the clinical portion of the program and the next qualified person will be admitted.
8. Students not gaining admittance to the ADN Clinical Class and wishing to be considered for the next clinical class will compete within the general applicant pool.
9. A student who fails NU 101 and wants to return to a future clinical class will be offered the opportunity to join the pool of applicants for the following year.

*GPA will be determined on only the non-clinical credit courses required by the ADN Program. Transfer courses will be included. Transfer credit earned without a letter grade (CLEP, AP, military evaluation, Challenge examination) will not be assigned quality points or calculated in the GPA.
