Foodservice professionals are perfectly positioned to play a central role in changing the way Americans eat. This program is designed for those passionate about integrating science-based nutrition research into their skillset and will equip candidates with the nutritional knowledge and culinary skills to optimize health. The class features hands-on cooking modules and online education.

Designed for:

- Foodservice professionals with 3+ years of experience
- Healthcare facility employees
- Students and graduates of culinary or nutrition programs
- Individuals with Certified Dietary Manager (CDM) certification and/or American Culinary Federation (ACF) designation
- Foodservice/Culinary/Nutrition Educators at post-secondary or secondary institutions
