Summer Camp 2019

Summer Science Lab (June 24-28)

Satisfy your sense of curiosity! Kids love finding out how things work through fun, hands-on projects. Campers will explore, discover and invent as they enjoy fascinating hands-on STEM (Science, Technology, Engineering and Mathematics) activities and get a feel for what science is all about. Campers will be problem solving as they explore chemical reactions, learn about simple machines and each day will be presented with a new STEM challenge! Special events include a visit to the C Burr Artz Public Library to visit the STEM Lab.

Creative Cooking (July 1-5 closed July 4th)

Concoct delicious creations from the kitchen! Read recipes, measure ingredients, and prepare favorite foods. This week campers will push the limits on the snack concept and prepare a variety of wholesome, delicious, and unique nibbles. Campers will plan a menu, make invitations, prepare a meal, and serve a special lunch on Friday. We hope our parents can join us for a special treat on Friday. Special events include making bread with Breadmake!

Slime Time (July 8-12)

Slime! – A week for the messy minded! Put on your lab coats and get ready to experiment with all sorts of slimy, gooey stuff. We will investigate and explore the chemical reactions at the root of all slime recipes. Activities include making magnetic slime, fluffy slime, butter slime, foam, and so much more! Special events include a visit from the Science Guys!

Rock Detectives (July 15-19)

Passionate about rocks? Let your child explore rocks and minerals during this fun week! Campers will discuss the rock cycle, look at fossils, and more. Campers will have the opportunity to grow salt and sugar crystals, create and explode a volcano, look for treasures, make pet rocks, and much, much more. Special events include a visit from Tim's Gems.

Baby, It's Cold Outside! (July 22-26)

When temperatures rise, it is time to think cool, really cool. So join us for a week of wintery activities. From marshmallow sculptures to "growing" our own snowflakes. This just might be our "coolest" week ever. Special events include going ice skating!

Imagination Station! (July 29-Aug 2)

Unleash your child's imagination this summer! The week will be filled with a fantastic blend of art based projects and concoctions, science experiments, and imaginative activities to develop creative thinking skills and inspire self-expression! Special events include a visit to the Washington County Art Museum and painting pottery from "I Made This!"

Mystery Camp (Aug 5-9)

Most of what we do this week is classified information! Our "Spies-in-Training" will have a blast as they decipher secret codes, dust for fingerprints, and uncover clues as they explore the intriguing world of secret agents. We will work together to solve mysteries and complete challenges to escape from a "Secret Room." Special events to be announced.

Young Naturalist (Aug 12-16)

Does your child love nature, plants, animals, birds, bugs, butterflies and exploring the great outdoors? Then they will love this camp! Discover the simple joys of nature and grow closer to the natural world through outdoor exploration, new discoveries and hands-on learning. Every day brings a different adventure for our campers! Special events include a visit from Scales and Tales, nature walks and more!

Crazy Days (Aug 19-22 no camp Aug. 23rd)

Let's have some FUN before summer is done! Every day will be a new theme such as mix and match day, beach day, and pajama day. Special events include an afternoon movie with popcorn, tie dye fun and a visit from a magician.

Please note that field trips and special visitors are always subject to change based on weather, availability and scheduling. Weekly swimming to be confirmed!
